My Reading Coach Testimonial  
October, 2005

During the first six weeks of school I have observed significant growth in Che's reading performance. He is enthusiastic and motivated to work independently with My Reading Coach. Che is aware of his improvement and success, and it is clear that his overall performance in school has improved as well. Che's experience with My Reading Coach has helped to increase his self esteem and confidence. He is constantly raising his hand to read aloud in class, and participate in class discussions. My Reading Coach has helped Che to demonstrate his strengths as a reader.

I have been sharing the success of this program with other educators and members of the community. The accurate assessments are one of the many powerful attributes of My Reading Coach. Assessment is an integral part of my job, and with this program I have immediate access to up to date and accurate data reflecting my student's progress and performance. I highly recommend My Reading Coach, and I know Che does as well.

Che's Testimonial

“My Reading Coach helps me with reading, learning new words, blends, proper nouns, pronouns and site words. It is cool because the man on the screen tells me what to do, and it makes it easy for me to learn. I want to meet him. My Reading Coach helps me to learn more about typing, and how to use the keyboard. I also like taking the spelling tests. I think My Reading Coach is very good for kids that need help with reading”
